

## Continuous School Improvement and Support for Charter Schools

JPS Solutions' Essential Charter School Services (ECSS) has brought together an elite team of educators and advisors to support charter schools at all phases of their evolution—from initial charter application through charter renewal and beyond.

JPS Solutions and its ECSS team have worked with charter schools for more than 20 years.

We helped to create and launch more than a dozen new charter schools

We helped charter schools in NYC and across NYS secure full and unencumbered charter renewals

We helped charter schools innovate, expand and replicate to establish new charter schools and networks

We secured more than \$60 million in grants for charter schools and established the Buffalo Charter School ELL Consortium.

If you have a specific project or concern, let's talk.

(914) 475-6056; [fsanfelic@jpssolutions.com](mailto:fsanfelic@jpssolutions.com); or [wjones@jpssolutions.com](mailto:wjones@jpssolutions.com);

Or consider our Initial Advisory Package

We believe that charter renewal is a process—not an event—and that it begins the second your charter is approved.

We will guide you through a “**Snapshot Examination**” of your academic programs, governance and operations to assess whether you are “on track” for charter renewal. We will conduct an analysis of your school that determines your school's strengths, needs and readiness for charter renewal
